INTRODUCTION	3
Complete couplings with plastic backing flanges	4
Complete couplings with cast iron flanges	4
Backing Flanges	5
Silumin backing Flanges	5
Cast iron backing flanges	6
Inserts	6
Collar gaskets	7
Flat gaskets	7
Gaskets for glass-lined	8
AISI302 Compression springs	8
SS AISI304 screws	9
SS AISI304 nuts	9
SS AISI304 washers	9
Quick-release couplings with closure	10
Complete PTFE bellows	10
PTFE bellows	11
Inserts for bellows	11

INTRODUCTION

Steroglass is a company operating on a global level in the chemical, biotechnological and pharmaceutical fields. Headquartered in Perugia, Italy and fully owned by Stefano and Roberto Falocci.

It all began more than 50 years ago. Mr. Luigi Falocci, the founder and forerunner of the company, a very resourceful man, created unique hand-blown products used since the early 60's by the most renowned Italian chemists. In just a few years the Falocci family has strived to achieve remarkable goals by designing and manufacturing borosilicate glass lab equipment, industrial plants for chemical and pharmaceutical purposes as well as electronic instruments with high-tech mechanical components and related software.

Steroglass has mainly focused on evaporation, titolation, metal detection, enzymatic and colorimetric analyses.

In recent years we have added to our innovative production a big variety of worldwide imported products so as to complete our own range, thus meeting most of our researchers and lab analysts' requirements. We offer our clients state-of-the-art solutions, pursuing a local and global partnership intended to cover every customer need, always bearing in mind environmental sustainability. Our cost-effective and innovative solutions for any glassware requirements, while giving high quality and constant service, also consolidate and increase competitiveness as well as meeting the standards demanded by the market and creating new strategic opportunities.

We trust that Glass will continue to be a valuable source for research, testing and production.

R&D continuous efforts, marketing-oriented attitude and a special attention to personal and professional growth of all employees allow us to compete at highest levels worldwide. We believe fair leadership can achieve results, grow talent and reward merit.

Blueside, a new Steroglass brand, has added value to our outstanding mastery in the borosilicate glass by turning scientific glass products into artistic objects which stand out in the excellent Made in Italy.

COMPLETE COUPLINGS ACCORDING TO DIN ISO 3587 AND ISO 4704 WITH PLASTIC BACKING FLANGES, AISI302 COMPRESSION SPRINGS, AISI304 BOLTS, SCREWS AND WASHERS

Code	Description	DN	Catalog ref.
SQQI007895	COMPLETE COUPLING	DN15	ST/SVER 15/K
SQQI007877	COMPLETE COUPLING	DN25	ST/SVED 25/K
SQQI007878	COMPLETE COUPLING	DN40	ST/SVED 40/K
SQQI007879	COMPLETE COUPLING	DN50	ST/SVED 50/K
SQQI007880	COMPLETE COUPLING	DN80	ST/SVED 80/K
